### Roundtable session on “Indian Healthcare – Roadmap 2025: Opportunities for Intensifying Collaboration”

Healthcare in India is at cross-roads. Multiple aspects of our health system are in a state of flux e.g. role of government, healthcare coverage, payment models, source of funds etc. Aarogya Bharat 2025 envisioned “A healthy India, where citizens are health-conscious and engaged and have equitable access to affordable health coverage with a focus on prevention, early diagnosis and assured minimum quality of care, offered by a vibrant ecosystem of public and private players operating in a sustainable healthcare system.” This is neither guaranteed nor automatic. It will be an outcome of conscious choice.

A year since we first discussed this, this session will be focused on the near term initiatives that the private sector and government, as a team, can work on to make it a reality. In doing so, the focus will be on areas of collaboration between different stakeholders.

**Moderator:** Mr. Karan Singh, Partner and MD, Bain India (Knowledge Partner of NATHEALTH)

**Chairperson:** Mr. BP Sharma, Secretary Ministry of Health & Family Welfare, Government of India

- Mr. Len de Jong
- Mr. Sushobhan Dasgupta
